

When the dream becomes a reality

THE BEDROOM IS NO LONGER WHAT IT WAS

And that's a really good thing. In such a way that the bedroom has become a real living area. Where we sleep of course, but also where, according to individual temperaments and desires, we have lunch, watch TV, or devour the latest novel. The manufacturers have well understood this. Most collections allow set-ups that meet the current requirements. At Au Bon Repos, the choice is not limited to the presentation of models. Even though we are presenting more than thirty different versions of bedroom furniture! Our advisors will be delighted to listen to you and to select the furniture of your dreams. If need be, and if you so wish, by visiting your home in order to come up with the project that really corresponds to your heart's desire. Our advisors (some of whom are also interior designers), will propose a quantified project, supported by a drawing, in order to avoid any surprises! They will take care to resort to all the subtleties that the collections allow. By using the smallest recess, or by adapting the furniture to the specifics of the construction.

Because there's never enough room. Space permitting, the creation of a dressing room can open other horizons, while keeping in mind that the volume thus created will be truly effective only in so far as it is equipped with care. In this respect, there is no shortage of solutions: transparent drawers, panoramic racks, drawer units, telescopic hangers, tie racks, LED lighting... to mention only a few. As for the finishes, the possibilities are innumerable. Lacquer, wood... or glass is often happily combined.

To design a project is one thing. To implement one is another. This is why we attach such importance to the training of our fitters. Probably the finest guarantee that we could offer you.

Contemporary bedroom furniture department on the third floor
Classical bedroom furniture department on the fourth floor

The great extent and variety of the HULSTA collections are always surprising. Difficult to evoke or even imagine their flexibility of adaptation that enables practically all our desires to be realised. The **Multi-Forma** programme wonderfully illustrates the HULSTA know-how. A programme that adapts to every situation and allows for storage space, where everything has been studied in order to make our lives easier. Where everything is stored as well. In all dimensions, and in many finishes. Absolutely to be discovered.

hülsta 

hülsta 

The choice of a bedroom is so personal that it is to better take your time, and to settle on your choice only after you've discovered all the facets of the HULSTA collection. Apart from the dimensions and the storage possibilities, the choice of finish is essential. It undoubtedly conditions our rhythm of life, by the choice of the colours. Is it not said that we spend nearly a third of our lives in bed?! Discover the HULSTA collection at Au Bon Repos: it's the certainty of being able to examine, in detail, a selection of this famous German brand's most beautiful bedrooms.

LA VELA 2

METIS PLUS

At Au Bon Repos, the HULSTA collection does not stop at the simple discovery of the models. Our advisors will guide you in your choice, and will establish a sketch and a detailed plan for you. A precise estimate as well. With no surprises. So that you can benefit from the HULSTA quality with absolute peace of mind, the more so as our service does not stop there either, since we provide free delivery and assembly, by true professionals, no matter where you live in Belgium.

Vega Bedroom

Although illustrated here in its maple version, the **Vega** bedroom is also available in white lacquer. The cupboard is composed of various elements, in multiples of 40 or 50cm. The corner element (not illustrated) is really practical in view of the many interior arrangement opportunities offered by this collection. Bed in widths of 160, 180 and 200cm.

Loddenkemper

Cortina bedroom, in solid alder. Sliding or swing doors. Bed in widths of 140, 160 and 180cm.

Laredo bedroom, beech, ash or walnut finish. Door fascias, bed frame and bedside table being able to be produced in white lacquer or bleached thurshwood. Cupboard in heights of 226 or 243cm. Bed in widths of 160, 180 and 200cm.

Open Wall Unit

Gap storage programme with swing doors of 37, 47 or 57cm. Available in four different heights (232, 242, 255 and 261cm). Embedded handles. JESSE is pushing the concern for detail here by offering a choice between two colours for the interior finish of the cupboards. What more could one ask?

Open, colour your life!

The elegance of the JESSE collection leaps to the eye. A denuded line gives this furniture its undeniable charm. By allowing the composition of a wall unit, practically "à la carte", JESSE allows each to give free rein to his or her creativity. In addition to the dimensions, JESSE offers the choice of a multiplicity of finishes. In matt or glossy lacquers, and in an infinity of colours. The doors can be embellished by wooden fascias (dark oak, Canaletto walnut or brushed pine) or by enamelled glass.

JESSE

Bed **Pixel**, exists in widths of 160 and 180cm. Several bedside table models, including the one built into the bedhead (our illustration).

Cupboard with sliding doors. Available in 4 standard heights, and 4 door widths. Possibility of choosing the interior finish.

FEG

See life differently

The possibilities offered by this collection are astonishing. By skilfully marrying matt or glossy lacquers with the beauty of ash or wenge, FEG has won its bet of being able to charm us.

FEG

Unit equipped with **Flat** doors (multiples of 40 or 50cm)

When the dream becomes a reality.

The collection is one of an extraordinary simplicity. At first sight only, because the possibilities offered by the various programmes enable an infinity of compositions to be considered. By varying the dimensions, the hues of the wood, the colour of the lacquers, without of course forgetting the great attention paid to the interior arrangement of the cupboards. Quite simply because a Carré cupboard is first and foremost highly functional.

4 week delivery

Here is a name that deserves to be known

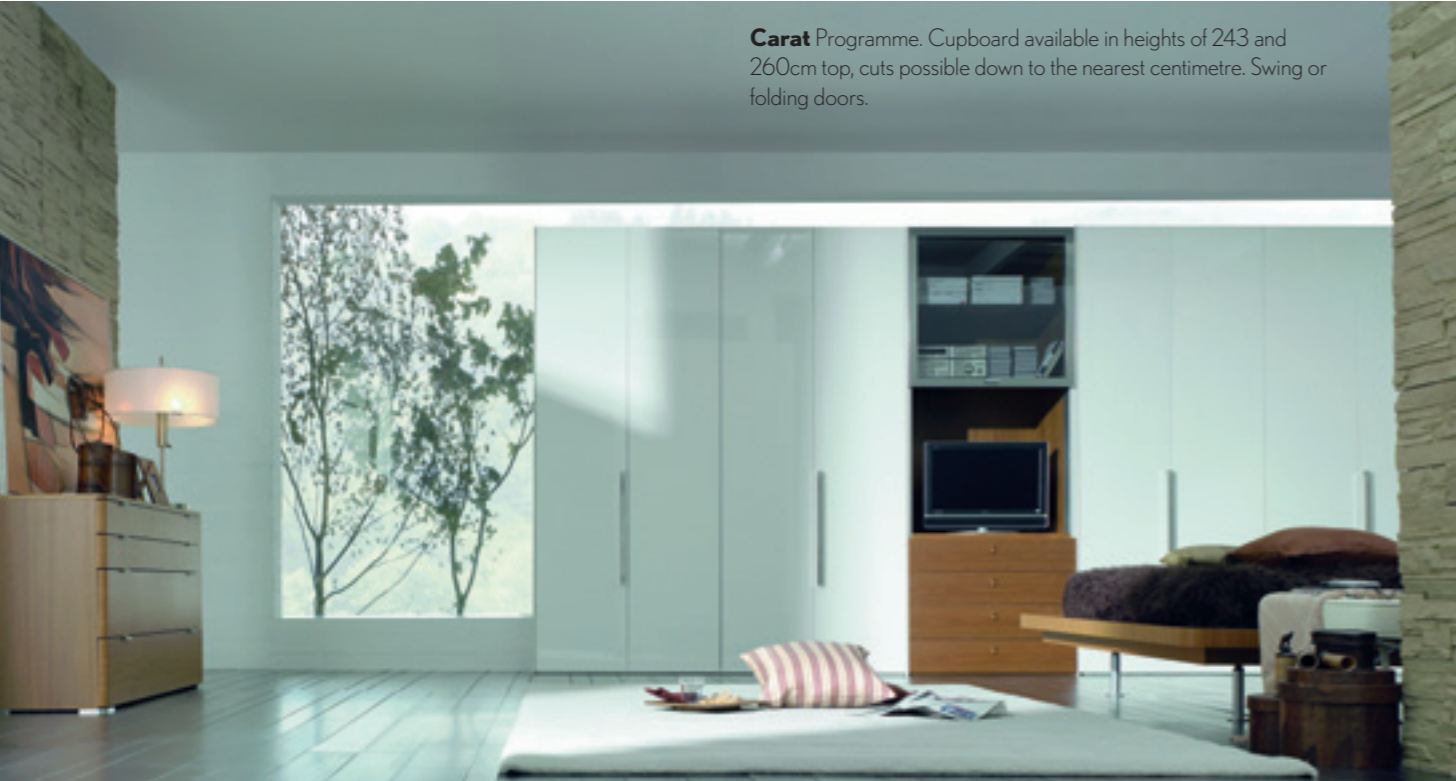

If only because of the prefix "HULSTA" that is attached to it. A guarantee of quality when it is a question of evoking a collection that enables the HULSTA quality to be discovered under particularly advantageous conditions. Admittedly, the arrangement and finish possibilities are more limited, but who will really complain about that? Far from limiting itself to a single programme, the NOW collection enables sets to be constructed in various colours of lacquer and species of wood, even if it means mixing them, if you so wish.

Now 12. A set in natural oak or anthracite, supplied with a wooden or brilliant lacquer fascia. Swing doors only. 4- or 5-door cupboard. Bed in widths of 140, 160 and 180cm.

Carat Programme. Cupboard available in heights of 243 and 260cm top, cuts possible down to the nearest centimetre. Swing or folding doors.

Flat Programme. Exists in enamelled white finish or with grey oak decorations. Vertically or horizontally storable bed. Integrated or not with other elements that enable a homogeneous unit to be created. Height of 220cm and depth of 32cm, saving more space. Bed in widths of 114, 164 or 184cm.

BOONE
INTERNATIONAL

Match Collection, presented in the mixed wood/lacquer decorations version. Choice between 12 different lacquer colours. Optional LED lighting.

Enlarge your living space... and your sleeping space

It doesn't matter what you call it. Stowaway bed, cupboard bed or reversible bed, this kind of furniture presents a constant, namely that under the appearance of an ordinary piece of furniture, it conceals a bed that is spare only in name. The various models presented by BOONE enable you, in just a few seconds, to have a top-quality bed. And a choice of several sizes. There are of course many variations, all of which meet a specific need. The bed can indeed appear in a surprising way and (almost) always unexpectedly. The collection developed by BOONE comprises cupboard beds that are vertical or horizontal, or which are stowed away to become furniture elements in their own right! The beds are of course available in various widths, from 80 to 160cm.

Mattress Quality

As a bedding specialist, our firm has always given priority to the quality of the mattresses in the cupboard beds. Admittedly, a traditional bed cannot be replaced, but all the same... The system allows for a top-quality mattress and a thickness that are greatly appreciated.

Choose the decoration...

Several finishes are available, with lacquer or wood decorations. Or a mixture of them both, which often gives the most beautiful effect.
